- ISO 9001 CERTIFIED

KEY INFORMATION

Titan Asia is one of the leading aircraft refueling systems manufacturer in India. Subsidiary of the Groupe POURPRIX, Titan Asia benefit from the vast experience of other subsidiaries of the group to propose a large range of products and services in civilian and defense refueling solutions to the Indian clients as well as neighboring countries. Titan Asia is able to supply you all the refueling equipment compliant with all international standards and guidelines.

A new plant, open since 2015, has increased the production capacity, while reducing production time and costs. Today, the whole team is engaged in this strategic move and a reorganization of the business and manufacturing unit is initiated to meet the group's ambitions on this growing market. Our brand-new factory is spread over 5500m² of covered working area and 2500 m² of open space. It is also very close from many airports and ports, facilitating our exportations. Our plant is equipped with the latest machineries to meet the high-quality equipment demand of our customers. The factory is ISO 9001 certified and we are a registered company under the PESO regulatory entity (Petroleum and Explosives Safety Organization, India).

OUR INTERNATIONAL PARTNERS

TITAN AVIATION, FRANCE

Our parent company Titan Aviation, France are majority stakeholder in the JV - giving us the global reach.

PECO FACET, FRANCE

Licensed under Peco Facet France for manufacture of various types of filter vessels.
